Certifications

Quality, environment and safety

- We have adopted a global improvement system aimed at achieving workers' safety and wellbeing, product and process quality, respect for the environment, which has been followed by a specific certification programme.
- The Integrated Quality, Environment and Safety Policy document relating to Valagro SpA summarizes the principles that guide towards the achievement of these objectives, in line with our mission and vision.

The integrated management system includes the following certifications:

Environmental Product Declaration (EPD)

An Environmental Product Declaration (EPD) transparently reports objective, comparable and third-party verified data about products and services' environmental performances from a lifecycle perspective.

ISO 14001: 2015

Environmental certification ISO 14001: 2015, the international standard that certifies a management system that monitors the environmental impacts of its activities, searching for a systematic improvement in a coherent, effective and sustainable manner.

ISO 9001: 2015

Quality System Certification ISO 9001: 2015 which certifies the addressing of all business processes to improve effectiveness and efficiency of the organisation, as well as customer satisfaction.

ISO 45001:2018

ISO 45001: 2018 certification, the international standard that establishes the requirements of a management system to protect the safety and health of workers.

Certifications

ISO 50001:2011

ISO 50001:2001 certificate is the international standard that specifies the requirements for improving energy efficiency by making a rational use of energy and by creating a balance between costs and benefits.

EMAS

Certification of compliance with the European Regulation 1221/2009, for the Eco-Management and Audit Scheme (EMAS), a voluntary tool proposed by the European Commission to evaluate and improve their environmental performance and to provide the public and other interested parties with information on correct environmental management.

In addition, Valagro adheres to a set of projects and organisations with the objective of broadening and strengthening the company's quality management:

ICQF

Fertilizer Quality Control Institute (FQCI), the body that annually assesses the compliance of the contents of the pack with the quality requirements of the Law 748/84.

GLOBAL G.A.P.

Member of GLOBAL GAP program, which has the aim of ensuring the integrity, transparency and harmonization of agricultural standards worldwide.
